AREA AGENCY ON AGING NACOG DIRECTOR CHOSEN FOR A SPECIAL NATIONAL COMMITTEE!

Director Mary Beals-Luedtka joins esteemed national colleagues to help drive change for the aging network and people with disabilities!

FLAGSTAFF, ARIZONA (December 5, 2016) – Area Agency on Aging Director, Mary Beals-Luedtka has been invited to be a member of an important national committee! Mary has been an advocate and has been doing this important work nationally, statewide and at the local level for the aging and disability populations for over 25 years, so it is no surprise her expertise and experience has been sought out.

In addition to their other important advocacy efforts, the National Association of Area Agencies on Aging (n4a) created this special Ad Hoc Committee to address the growing needs of the older adult and people with disabilities population. This committee will help shape the focus of the aging network to prepare for the changes ahead as the challenges become increasingly complex. The 2 year commitment will allow for the development of a policy and programmatic framework for the future to ensure the aging and disability populations and caregivers are valued and supported. Mary will be joined by n4a Board President, Kathy Boles along with other hand-picked and established colleagues from across the nation, beginning their journey together in January of 2017.
